### Full job description

#### Your new company

My client is a leading FMCG and food manufacturing supplier that has been in operations within Australia for over 100 years. A well established organisation with a strong client pipeline across both industrial and food service markets, you will be joining a team that has experienced steady growth and boasting strong employee retention. A company that offers numerous growth opportunities, both within this business and across other household names in the sector, you will be joining a team that truly values its employees, places strong emphasis on personal and professional development, and is committed to values of integrity, excellence, passion, teamwork and safety.

#### Your new role

A Senior Electrical Engineering vacancy has opened up within Operations business unit, reporting into the National Engineering Manager with a focus on supporting the organisation's engineering requirements and driving continuous improvement. Your role would include:

- Driving standardisation and continuous improvement processes within the organisation
