LEADERSHIP SKILLS

### Full job description

#### Your new company

Hays Engineering are partnered up with a well-recognised essential service provider. Based in Sydney, with future work already secured a new position for a Senior Tunnel Electrical Engineer has arose. Through the forming of strategic partnerships and organic growth they have acquired iconic projects within the tunnel industry.

#### Your new role

Working for one of Sydney's most reputable essential service organisations, you will be given the opportunity to work on-site projects across 5 major Transurban assets. The main project deliverables are ongoing repair/replacement of air circuit breakers (ACBs) and other electrical equipment. You will be responsible to ensure projects as agreed with clients are delivered on time and in budget.

#### What you'll need to succeed

The successful candidate will come from an Electrical Engineering background with at least 3 years' experience within the tunnel industry. You must be a self-thinker that delivers projects in an efficient and orderly manner as you will be given full project autonomy. It is expected that you have a strong understating of tunnel codes and regulations. The ideal candidate will have great leadership skills as there will be supervisors who will be directly reporting to you.

#### What you'll get in return

You will be given the opportunity to work on some iconic Transurban projects such as the M2, Lanecove tunnel, Eastern Distributor, West Harbour Tunnel and many more. This team is collaborative and prides themselves on working as a team to get projects delivered on time while maintaining the highest
